# Today’s Old News – Archives in Winzip

s

## GNU – Project which just compiles and lists the organization of documents then is just a composition it also means, which is to abstract it, into an abstract domain what is called a Winzip

# See a Complex Movement in a Camera

Public Transportation and the Changing Face of Buses and Protest of them

Now I articulate this to Slavoj.

Which then if I abstract it again is something of a cool process for Stallman who works with free software – how it just multiplies in this way which is to compile it again and again and multiply it which though is syntax which means a complex organization which finally means to organize the process into bundles of files which then code the whole process and refine it to the process finally of decoded complex organization. He keeps speaking this

Now just see the process develop into archives

Many archives of history.

I mean mix it into jazz music as well.

Photographer: William Harper.

We see it all developing well – CPSU

In fact we mean nobody knew of any of these buildings or any of this stuff - Gorbechove

. . . . . .
